

## **WINDOOR**

### Description:

Windoors is one of Ireland's leading suppliers of high quality, high insulation Windows & Doors. Our Windows & Doors come in a choice of Sapino – a traditional pine heartwood, Tinium - a combination of a powder-coated aluminium exterior & natural wood interior finish, or Mogano – an attractive red-brown mahogany.

Windoors's combination of a pre-coated aluminium exterior & natural wood interior finish of the Tinium range is for the customer that requires high durability & low maintenance, along with energy conservation.

The unique structure of all of our Windows & Doors creates very high insulation values (U Value: 1.1 for double glazing units and 0.7 for triple glazing units), thereby reducing heating costs, improving home comfort & improving energy conservation.
